SENATE BILL

No. 499

Introduced by Senator Alarcon

(Coauthor: Senator Alquist)

(Coauthors: Assembly Members Cohn and Saldana)

February 18, 2005

An act to add Section 1255.25 to the Health and Safety Code, relating to health facilities.

LEGISLATIVE COUNSEL'S DIGEST

SB 499, as amended, Alarcon. Hospitals: emergency medical services elimination.

Existing law generally requires any hospital that provides emergency medical services to, not later than 90 days prior to a planned reduction or elimination of the level of emergency medical services, provide notice of the intended change to the State Department of Health Services, the local government entity in charge of providing health services, and all health care service plans or other entities under contract with the hospital to provide services to enrollees of the plan or other entity. Violation of this requirement is a crime under existing law.

This bill would require a hospital, prior to issuing notice to the department of a planned elimination of emergency medical services or closure of the hospital, to prepare a public health and safety report, to submit that report to the county supervisors and the local emergency

medical services agency, and to make the report available to the public. By changing the definition of a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

- 1 SECTION 1. Section 1255.25 is added to the Health and
2 Safety Code, to read:
